CONFLICT MINERALS POLICY

In Aug 2012 the United States Securities and Exchange Commission ("SEC") published "3TG", a ruleset concerning "Conflict Minerals" as required by the Wall Street act (sec. 1502) and by the Dodd-Frank Act.

According to SEC's rulest, the conflict minerals are:

- Coltan (columbite tantalite) and derivates (Tantalum);
- Cassiterite and derivates (Tin);
- Wolframite and derivates (Tungsten);
- Gold.

Officina Meccanica Aldo De Tomasi vows to a thoughtful use of these minerals, according to both national and international norms and to SEC's rules concerning "Conflict Minerals", to guarantee that every product under our name is "conflict free".
